Press Release 01/25/17  
**13-19 MARCH 2017**  
**AT GAÏTÉ LYRIQUE, PARIS**

A major event dedicated to contemporary audiovisual creation, the Rencontres Internationales will offer, **from January 13th to January 19th at the Gaîté lyrique**, a space of discovery and reflection on new cinema and contemporary art.

In the presence of 100 artists and filmmakers from all over the world, this exceptional edition introduces a brand new international programme, comprising 120 works from 40 countries. By bringing together internationally renowned artists and filmmakers with young and emerging ones, the audience will attend **indoor screenings – premieres, cartes blanches, special sessions, video screenings, performances** – as well as **roundtables and forums** led by directors of art centres and museums, curators, artists and distributors, who will share their experience and views on new audiovisual practices and issues with the audience.

This is a unique platform in Europe where artists can meet with each other, exchange ideas with a large audience and initiate new projects. This new edition of Rencontres Internationales offers a rare and exciting glimpse into contemporary moving image practices.
