new cinema and contemporary art

Centre Pompidou, Luminor Hôtel de Ville,
Cité internationale des arts

A major event dedicated to contemporary audiovisual creation, the Rencontres Internationales Paris/Berlin invites you to discover its new programme.

For this edition, the event comes back to Paris from 10 to 15 April 2018. It will be held in several venues: Forum des images, Centre Pompidou, Carreau du Temple, Luminor Hôtel de Ville and Cité internationale des arts.

In the presence of 100 artists and filmmakers from all over the world, this edition introduces a brand new international programme, comprising 120 works from 40 countries; bringing together internationally renowned artists and filmmakers with young and emerging ones presented for the first time.

Among them are the Austrian artist **Valie Export** (documenta Kassel, MoMA New York), the Portuguese filmmaker **Pedro Costa** (official selection, Cannes 2006 for "En avant jeunesse", Best Director Award at Locarno in 2014), the German filmmaker **Heinz Emigholz** (Berlinale International film festival, Viennale), or the Finnish artist **Eija-Liisa Ahtila** (Venice Biennale, Jeu de Paume museum).

What's on

Indoor screenings – exclusive **premieres, cartes blanches, special sessions, video screenings, performances** – as well as **panel discussions and forums** led by directors of art centres and museums, curators, artists and distributors, who will share their experience and views on new audiovisual practices and issues with the audience.

This is a unique platform in Europe where artists can meet with each other, exchange ideas with a large audience and initiate new projects. This new edition of Rencontres Internationales offers a rare glimpse into contemporary moving image practices.
